Freestone™ pool finishes bring natural beauty to the forefront, while achieving radiant color and a smoother small pebble, non-abrasive surface with a long life, easy maintenance, and warranted for life. Available in six, rich premixed colors, or custom colors created on-site.

Actual water color and finishes may differ from printed samples. It is normal to have variations in color, shade and exposure. Influencing factors may include the water's depth, angle of sunlight, surrounding landscape, time of day and time of year. It is recommended to view finish samples wet as appearance will change from dry viewing.
